### FLANGED/GROOVED WHEELS

We produce a variety of flanged and grooved wheels with different dimensions, bearing types and load capacities using materials such as PEVOLON®, steel and grey cast iron.

Due to our efficient plastics and mechanical production with our own mould making, toolmaking and fixture construction, we are able to produce high-quality and cost-efficient products according to your specifications and drawings.

## Single-flanged steel wheels with ball bearings

Single-flanged wheels turned from C45 steel (solid material) with cylindrical tread. Wheel centre with ball bearings (/5).

Technical information: The indicated load capacities are obtained from the permissible pressure between wheel and rail with maximum possible rail head width and  $v = 40 \text{ m/min}$  ( $\approx 2,4 \text{ km/h}$ ).
